

Getting major capital projects **lender-ready.**

A **principal-led** advisory bringing international, DFI-grade rigour to bankability, due diligence and delivery — for major capital projects across the Gulf and Africa.

BANKABILITY READINESS SCORE

Principal-led

Direct access to the principal — no leverage model.

DFI-grade rigour

Prepared to the standard international lenders apply.

The full journey

Diagnostic through to delivery — one accountable partner.

Boutique economics

Tier-one quality, a fraction of big-firm fees.

A structured path to financial close

FTA&C's ladder takes a project from first diagnostic through structuring, due diligence and delivery — each stage building directly on the work already done, so nothing is assessed twice. Most sponsors start with the free Health Check or the Diagnostic and progress as their project matures, though a mature project can enter at any stage — through to post-financial close delivery. The fee for your first paid step is credited in full against your next engagement.

1

Health Check

Free

Free indicative readiness score.

2

Diagnostic

\$3,000+

Fast review of your five core documents.

3

Assessment

Scoped

Full review across 5 bankability pillars.

4

Build-Out

Scoped

Engagement-based, three-month minimum.

5

Project Mgmt

Scoped

Senior oversight post-financial close.

Assessment and Build-Out are scoped in conversation, following your Diagnostic.
